For Computer Information Systems

May 9, 2011

Professor Thomas Seymour
College of Business
Minot State University
Minot, ND 58707

Dear Professor Seymour:

Congratulations on being selected the **IACIS 2011 Ben Bauman Award for Excellence** recipient. Your contributions to the Information Systems Profession, your commitment to students, your community service, and your scholarship are impressive. Competition was very keen this year, with a number of outstanding nominations.

I am notifying the Conference Chair, Dr. Rich McCarthy, of your selection, and that you will be joining us in Mobile for our annual conference and presentation of the award. You are responsible for providing and funding your own travel and accommodations arrangements. The award is presented during our business meeting and luncheon scheduled for Friday, October 7, 2011.

In preparation for a public announcement of the award I would appreciate your sending me a black and white photograph, preferably by electronic image, to be used for publicity. If you would like me to send notification of your selection for this award to your university administration, please send via e-mail the name and address of person(s) you would like me to notify.

Again, congratulations on being selected **IACIS 2011 Ben Bauman Award for Excellence** recipient.

Sincerely,

Robert Behling
Executive Director
